CLICBOX CABINETS ASSEMBLE UP TO 5 TIMES FASTER THAN STANDARD CABINETS & THERE'S NO NEED FOR TOOLS!

ClicBox By BA

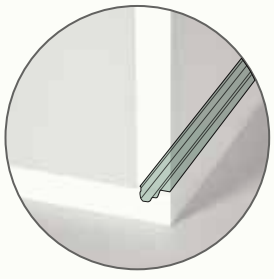
Assembled in 30 Seconds!

The UNICLIC technology

The UNICLIC technology is a tongue and groove solution which enables a click connection at an angle of 90°. This revolutionary technology makes it possible to assemble flat packed kitchen cabinets by simply clicking the components together, without requiring any tool, screw or glue!

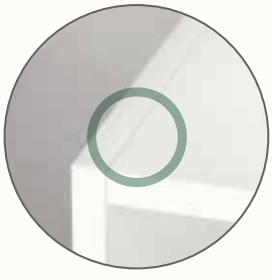
Stronger connection

The click connection is stronger than a traditional assembly system as the joints interlock along the entire assembly length instead of only on 2 fixing points.



No visible fittings

As there are no fittings required with UNICLIC, the technology is completely invisible.



Fast & Simple for Every Professional

- ***Assemble on site.***
- ***No tools, no glue, no missing fittings.***
- ***Less chance of damage in transit.***
- ***67% saving in vehicle space.***
- ***Suitable for limited access areas.***
- ***Ideal for multiple floor buildings.***
- ***Less time, more profit.***
